DETAILED ACTION

Claim Objections

1. Claims 6-10, 17-19 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should not depend for another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 6-10 and 17-19 have not been further treated on the merits.
2. Claims 11 and 13 are objected to because of the following informalities: In claim 11, the phrases “the head of the male part” lacks antecedent basis. In claim 13, the phrase “the retention device”, and “the female part” lacks antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

5. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, the phrase "can be" renders the claim indefinite because it is unclear if the holder being in the form of a tray is positively claimed.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-5, 20 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Brem, US 6509187.

8. With respect to claim 1, 20, and 21, Brem teaches a system for identification of animals comprising an animal identification device (10, 11) adapted for application to an animal and a device (1,9) for secure storage of organic material taken from the animal to be identified by the identification device. Both the storage device and identification device are marked with a common identifier. See column 3, lines 6-40.

9. With respect to claim 2, both the identification device and the storage device can be mounted to pliers prior to use. See column 4, lines 34-52.
10. With respect to claim 4/1, 4/2, 5/4/1, and 5/4/2, the identification device comprises ear tags 10 and 11. See column 3, lines 16-21.

Allowable Subject Matter

11. Claims 3, 4/3, 5/4/3, and 11-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
